Note: Please read New Password requirements above.

A screenshot of a "Change Password" dialog box. At the top, there is a red warning banner with the text: "WARNING: Your password has been detected as being weak. Please update your password." Below the banner, it says "This will update your mailbox password and it will affect all of your email addresses." There are three input fields: "Current Password:" with five black dots, "New Password:" with seven black dots and "(min 8 chars)" below it, and "New Password Again:" with seven black dots. A blue "Update Password" button is at the bottom right.

Updated Password

A screenshot of a "Change Password" dialog box. At the top, there is a green success banner with the text: "Your Password was successfully updated". Below the banner, it says "This will update your mailbox password and it will affect all of your email addresses." There are three input fields: "Current Password:" which is empty, "New Password:" which is empty and has "(min 8 chars)" below it, and "New Password Again:" which is empty. A blue "Update Password" button is at the bottom right.
